**Mentor Mentee**

**Objective and Outcomes**

Faculty mentors play a crucial role in mentoring graduates. Students and their mentors share responsibility for ensuring productive and rewarding mentoring relationships. Both parties have a role to play in the success of mentoring. For students, a mentor is someone who serves as a guide throughout their institutional training. They provide both professional and personal advice in transitioning into, and out of, graduate school. They give constructive feedback on writing, teaching and other elements of career design. They can serve to help students balance professional goals with their personal lives or give emotional encouragement during challenging times.

**Following are its objectives:**

1. Enabling constructive interaction, guidance and mentorship of junior students by senior students
2. Providing a reliable and comprehensive support system to motivate students to excel in both academic and non-academic fields and to make the most of their life at the Institute.

**Objectives of SMS (Student Mentoring System) the objectives of the SMS include:**

To help undergraduate fresh students understand the challenges and opportunities

- Present in the Institute and develop a smooth transition to campus life. To counsel academically weak undergraduate first year students and to play an

- Important role in helping troubled students cope with academic, extra-academic and personal problems. To provide positive role models to first year undergraduate students in the institute
- To proactively try to identify problems of the general student populace and to bring them to the notice of the concerned authorities. Ensuring regularity and punctuality of students through counseling sessions
- The SMS attempts to track these objectives by carefully identifying those who can act as an anchor and guide for a student or an academically weak student.. Student Mentors will be selected to play this role and are given the authority to pursue the mission of this programme. The implementation of the SMP and its details are covered subsequently in this document.

### **Programme implementation will be in following phases:**

Phase I: Selecting Student mentors from First year students.

Phase II: Allotment of students to the mentors.

Phase III: Interaction of first year students with the mentors and identifying strengths and weaknesses of the mentees. Forming whatsapp group, if possible, to keep contact among the group.

### **Functioning of the SMP**

#### **The Student Mentor body is vested with the following powers:**

- Every Students mentor has the power to halt any activity that involves freshmen. Such activities include, but are not limited to: introduction sessions conducted by seniors, either personal or relating to extracurricular activities.
- In matters pertaining to academics, which require preventive or curative action to be taken in the interest of the wards, the mentor has the responsibility and the right to

- In matters that affect the wards, and can only be resolved at the institute level, the Student Mentors have the right to bring the problem to the notice of the Principal, and demand prompt action for the same. It is however desired that the mentor team works in harmony with the student council.
